

## Peyman Ghobeiti

---

**Born:** October 10, 1994  
**Phone:** +989363174530  
**E-Mail:** [eng.peyman.ghobeyiti@gmail.com](mailto:eng.peyman.ghobeyiti@gmail.com)  
**LinkedIn:** <https://linkedin.com/in/peyman-ghobeiti>

### Professional Summary

---

Experienced software developer with seven years in creating high-quality solutions using ASP.NET Core, C#, and MS SQL Server. Proven track record in leading projects, optimizing performance, and reducing costs. Skilled in troubleshooting and implementing scalable architectures. Strong team player committed to continuous learning and taking on new challenges.

### Work Experiences

---

*Jan 2020 – Present*

#### **Software Developer, Khuzestan Water and Power Authority**

Specializes in managing surface and groundwater resources, controlling dams and reservoirs, and mitigating water crises like floods and droughts.

- Led the design and implementation of REST APIs, websites, and software using ASP.NET Core, C#, HTML, CSS, jQuery, and MS SQL Server.
- Architected scalable software solutions for complex web applications, enhancing performance and reducing maintenance costs.
- Migrated databases and web applications from legacy Windows applications, improving system performance.
- Optimized a measurement data web application by refining C# and MS SQL source code, improving reliability and speed.
- Implemented pagination and lazy loading, reducing monitoring time for SQL database records.
- Automated data transfers between disparate databases through autonomous worker services, ensuring data coherence.
- Managed the full software lifecycle from ideation to deployment, delivering projects on time and ensuring robust security measures for REST APIs.

*Sept 2018 – Dec 2019*

#### **.NET Developer, Ravis Fanavaran Vira**

Produces industrial control systems for monitoring oil pipelines and workshop equipment, including electronic components and control systems.

- Developed and implemented ASP.NET Core projects for workshop management, enabling real-time monitoring and control of equipment performance enhancing safety and ensuring equipment health.
- Implemented automated, time-triggered data retrieval from workshop equipment using Quartz, ensuring seamless data integration.
- Built and maintained REST API services for mobile applications.
- Applied the unit-of-work pattern to safeguard against database changes during CRUD operations, reducing open database connections.
- Collaborated with product managers to perform design and analysis, resulting in clear project requirements for development.
- Optimized class and controller dependencies by applying Inversion of Control (IoC), enhancing modularity and maintainability.

Feb 2015 – Aug 2018

## **.NET Developer, Rayan Pardazesh**

Develops commercial and administrative web and Windows-based systems, offering comprehensive software solutions for businesses and offices.

- Built and maintained the first modern Windows application for clubs in Khuzestan.
- Enhanced user experience with an intuitive design using DevExpress and Telerik components.
- Implemented C# user controls for data binding within Master Pages, improving overall application functionality.
- Developed new features and functionality on existing software products.
- Strengthened security measures and optimized command execution speed by 35% through precompiled techniques and the use of Transact-SQL with stored procedures.

## **Qualifications**

---

<b>Framework:</b>	.NET Core, ASP.NET MVC, .Net Framework, REST APIs, Entity Framework, LINQ, ASP.NET Web Forms, Win Forms, WPF, ADO.NET, Worker Services, Windows Services, Web Services, Telerik, DevExpress
<b>Languages:</b>	C#, C, JavaScript, T-SQL
<b>Database:</b>	SQL Server, SQLite, MySQL
<b>Web designing:</b>	HTML5, CSS, JavaScript, jQuery, Bootstrap
<b>Version control software:</b>	Git
<b>Tools:</b>	Microsoft Visual Studio, SQL Server Management Studio, Visual Studio Code, Resharper

## **Education**

---

<b>Ayatollah Borujerdi University</b>	<b><u>Bachelor's Degree</u></b>
Borujerd 2013-2017	Computer Software Engineering

## **Languages**

---

**English - Fluent**  
**German - Intermediate**  
**Persian – Native**

## **Credentials**

---

available on request
